

TECHNOLOGY TOOLS TO MAKE LEARNING FASTER, EASIER, AND MORE AFFORDABLE!

The eLearning format consists of 15 self paced learning sessions lasting approximately 10-15 minutes each. Each learner will need to access to a computer with a high speed internet connection. Each session contains a learning confirmation quiz and the ability to print a certificate of completion.

Benefits of eLearning Classes:

- Classes are designed around the learner.
- On-demand access means learning can happen precisely when needed.
- Travel time and associated costs are reduced or eliminated.
- Professional quality presentations.
- Classes created and taught by industry experts.
- Training can be tracked to determine each employees training status.
