

2012 NESC[®] Major Changes

A 90-minute Live Web Seminar

About the Seminar:

2012 NESC[®] Major Changes is a live 90-minute web seminar discussing the major changes in the 2012 National Electrical Safety Code (NESC[®]). This webinar is essential for all levels of utility engineering and operations personnel to ensure their knowledge of the latest safety code requirements. The *2012 NESC[®] Major Changes* live web seminar is a condensed version of Marne and Associates two-day seminar, *2012 NESC[®] Major Changes and General Overview*, which is being presented in cities across the United States.

About the Instructors:

This course has been prepared under the direction of David J. Marne, P.E. Dave is the author of McGraw-Hill's NESC[®] 2012 Handbook. The class will be presented by Dave or one of Marne and Associates qualified presenters. Presenters have various experience with NESC code applications, transmission design, distribution design, substation design, and joint use power and communication design.
